

SignLex.org installation instructions

For a full user experience of www.SignLex.org one has to install special multi media plugins for the internet browser. The plugins are listed below:

- Macromedia Shockwave Player MX [1]
- Apple Quicktime Player [2]

Those plugins can be downloaded free of charge at following locations:

[1] <http://www.macromedia.com/software/shockwaveplayer/download/>

[2] <http://www.apple.com/quicktime/>

We recommend a resolution of 1024x768, 16 bit colour depth. Moreover it is an advantage if you have a high bandwidth connection to the internet.
